Art Unit: 2629

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-23, drawn to the method and apparatus of a liquid crystal display (LCD)
 with backlight module, classified in class 345, subclass 102.

II. Claims 24-30, drawn to a multi-light driving device for driving a plurality of light-emitting units and controlling the brightness of the light-emitting units, classified in class 345, subclass 76.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they shown to be separately usable. In the instant case, invention I has separate utility such as a method and apparatus for driving an LCD with backlight module does not require a multi-light driving device for driving a plurality of light-emitting units of invention II. Invention II also does not require a method and apparatus for driving an LCD of invention I. See MPEP § 806.05(d).
- 3. Because these inventions are independent or distinct for the reasons given above and there would be a serious burden on the examiner if restriction is not required because the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.
- 4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2629

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. A telephone call was made to Mr. Joe McKinney Muncy on 9/15/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Correspondence

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kimnhung Nguyen whose telephone number is (571) 272-7698. The examiner can normally be reached on MON-FRI, FROM 8:30 AM-5:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Hjerpe can be reached on (571) 272-7691. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
